1. Start on I-294 S (or E) from Chicago to Indiana
2. Stay on this as I-80E and I-94E merge into I-294 and it becomes I-94E/I-80E
3. Soon after passing the I-65 interchange, you will see signs for the Indiana Toll Rd (I-80/I-90)
4. Take the Toll Rd exit (you pass exit 15A and 15B and take exit 16)
5. Exit 16 starts gradually to the right followed by a sharp loop heading across the interstate. Then it splits into I-90W (Chicago) and I-80/I-90E (Indiana Toll Rd/Toledo)—Take I-80/I-90E (first right after the bridge).
6. Follow the Indiana, Ohio, and Pennsylvania Turnpike for about 400 miles ($4.40 Indiana, $10.25 Ohio, and I-Pass in Pennsylvania). It is I-80/I-90E through Toledo, I-80E near Cleveland, and then I-76E in Youngstown, OH to Pittsburgh.
7. After driving for about 30 miles into Pennsylvania (cross a river, head down the hill), take exit 28 (I-79S to Pittsburgh). You take a sharp exit to the right that then turns sharp to the left and heads over the turnpike. You will pass an exit to US-19 and then take the right to I-79S to Pittsburgh.
8. After about 10 miles, the highway splits. Follow I-279S to the LEFT (Pittsburgh).
9. As you come down the hill and approach the city (the downtown skyline will appear out of nowhere!), look for the exit to Veterans Bridge (I-579 S/Cross-town Blvd) to the right (up a ramp).

10. This bridge heads off to the left along the north side of downtown Pittsburgh (the crazy looking building—like a giant tent—is the convention center). Stay in the right lane and stay on I-579 as you go around downtown.
11. After you pass Mellon Arena on your LEFT and go under some bridges connecting uptown to downtown, look for the exit to I-376E to Oakland/Monroeville. BE CAREFUL! This is FAR to the right and you might have to merge with traffic coming from an onramp from downtown (lots of buildings and bridges make it cluttered). If you miss this exit, it will be a LONG time before you can turn around (you would end up on the Liberty Bridge and have to go through the Liberty Tunnel).

12. This exit takes a sharp left on a bridge over the highway and now you are heading east on Blvd of the Allies (up high above the highway and the river to your right). Stay in the right lane. You want to take the exit to I-376E. This is easy because you HAVE to take the exit (A bridge is being rebuilt on Blvd of the Allies so it is closed after this exit).

13. Take I-376E for a few miles to the Squirrel Hill/Homestead exit (5). Take this exit SLOW!

14. IMMEDIATELY sneak over to the right lane! Remember you are going SLOW!! You want to be where the red arrow is in the picture.
15. A small green sign on the right will say Greenfield. Take this SHARP exit slowly.

16. Follow Beechwood Blvd into Greenfield.
17. Take a left at the lights (Greenfield Ave & Beechwood Blvd).

18. Take a sharp right after passing Rialto’s Pizza on your left.
19. Head gradually down the hill through Greenfield on Greenfield Ave.
20. When you pass St. Rosalia Church on your right, get ready to turn left.

21. As you start going down hill, take the gradual left up the hill (Kaercher St).

22. On top of the hill at the stop sign, take a left up another hill (Bristol St).
23. At the top of the hill take a right at Augustine St (downhill).

24. Address is 11 Augustine St (3rd house on the right—yellow, garden, porch light on). Park on the left side of the street.
Blue markers are when you need to take an EXIT.
